Professional Summary

MERN Stack Developer with hands-on experience building and deploying full-stack web applications using MongoDB, Express.js, React.js, Node.js, and Next.js. Skilled in REST API development, JWT authentication, role-based access control, responsive UI design, and cloud database integration. Built and deployed production-ready projects including TechStore and Smart Campus Assistant using Vercel, Render, and MongoDB Atlas. Familiar with Git, Docker, GitHub Actions, CI/CD workflows, and modern full-stack development practices.

Technical Skills

Frontend: React.js, Next.js, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Responsive UI Design

Backend: Node.js, Express.js, RESTful APIs, JWT Authentication, Authorization

Databases: MongoDB, PostgreSQL, Firebase

Tools & Platforms: Git, GitHub, Docker, GitHub Actions, Postman, VS Code, Linux (Ubuntu), Vercel, Render

Additional Technologies: Stripe API, Google Gemini API, CI/CD Basics, Python Basics

Projects

TechStore

May 2026

Technologies: Next.js, React.js, Node.js, Express.js, MongoDB, Tailwind CSS, Stripe API, JWT Authentication, Vercel

Links: [GitHub](#) | [Live](#)

- Developed and deployed a full-stack e-commerce platform using Next.js with responsive product, cart, checkout, and order workflows.
- Implemented product listing, product details, cart management, checkout flow, and order-related functionality.
- Integrated Stripe API for secure payment processing and improved real-world e-commerce workflow.
- Built backend APIs with secure authentication, database operations, and scalable application structure.
- Deployed the project on Vercel and connected it with cloud-based database services for production usage.

Smart Campus Assistant

Apr 2026 – May 2026

Technologies: MongoDB, Express.js, React.js, Node.js, JWT Authentication, REST APIs, Tailwind CSS, GitHub Actions, Postman, Vercel, Render

Links: [GitHub](#) | [Live](#)

- Developed a role-based campus management platform for Admin, Faculty, and Student users to manage academic workflows from a centralized system.
- Implemented secure JWT authentication, authorization, and role-based access control for protected dashboard access.
- Built timetable management, lecture scheduling, attendance tracking, academic notifications, and conflict detection features.
- Designed responsive dashboards and scalable REST APIs integrated with MongoDB for efficient academic data handling.
- Deployed the frontend on Vercel and backend API on Render with MongoDB Atlas as the cloud database.

Education

LJ University

Expected Apr 2027

Master of Computer Applications (MCA) – Pursuing

LJ University

Apr 2025

Bachelor of Computer Applications (BCA) – CGPA: 8.47/10

Certifications

- [IBM DevOps and Software Engineering Professional Certificate](#) – IBM via Coursera
- [AWS Academy Graduate – Cloud Architecting](#) – AWS Academy via Credly

Additional Information

Languages: English, Hindi, Gujarati (Native)

Soft Skills: Problem Solving, Cross-functional Team Collaboration, Time Management, Prioritization
